If you are certifying him/her for retro-active MA, do not go back further than the 1st of the month, 3 months prior to the month of application.

Certify the person for any backdate month in which s/he would have been eligible had s/he applied in that month.

See 10.6.4 for prepayment instructions.

Assets. A person's asset eligibility in a backdate month is determined by whether or not s/he had excess assets on the last day of the month.

If s/he was asset eligible on the last day of the month, his/her eligibility begins on the 1st day of that month. If s/he had excess assets on the last day of that month, s/he is ineligible for the whole month.

Go to 13.

13. The first required eligibility review for all MA cases that are not time limited is 12 months from the certification month. Time limited cases are pregnant women, continuously eligible newborns, deductibles and extensions.

Don't schedule a review for a case that didn't meet it's deductible unless someone in the case was open for MA, or is open for another program.

Review SSI-related cases within 12 months from the eligibility date, unless an earlier **disability review** is indicated.

There is no face-to-face interview required for SSI-related MA at review.

The agency may review any case at any other time when the agency can justify the need.

This completes the eligibility determination process.
